**Software Developer**

As an ambitious Computer Science student with a passion for creating innovative solutions, I am seeking a placement/Intern role that offers hands-on experience in Software Development and UI/UX Design. My goal is to apply my foundation in programming principles and UX/UI design to contribute to projects. I am eager to leverage my skills in [HTML, CSS JavaScript, Python, Figma] to contribute efficient software solutions and design intuitive, user-friendly interfaces. This is an opportunity to apply and gain transferable knowledge working with other expertise by observing, participating, make contributions and experience the technology industry.

## Education

**BSc Computer Science – Software Engineering**                                                          **2023 - Present**
**University of Hertfordshire, United Kingdom.**

**Current GPA: Distinction**

**Modules:** Silicon to C, Python Programming, Data Modelling, Algorithms and Data Structures, Operating Systems and Networks, Artificial Intelligence, Computing of Things, Database Systems, Principles and Practices of Large-Scale Programming, Accessibilities and Usability.

**BSc Computer Science**                                                                                  **2022 - 2023**
**Hertfordshire International College, United Kingdom.**

**GPA: Distinction**

**Modules:** Introduction to Programming, Mathematics 1, Mathematics 2, Business Studies, Interactive Learning Skills and Communications, Introduction to Mass Communications Algorithms and Data Structures, Principles of ICT, Statistics.

## Professional Experience

**Bright Network, United Kingdom (Virtual Technology Intern)**                                            **June. 2024**
Software Development Intern
- Gained practical insights into software-oriented project management by developing a fitness mobile app, RUNWIZE, resulting to 15% in adoption rate, improved customizable use interface, seamless reports, Introduced competitive Social Platform and improved accessibility and usability.
- Demonstrated commitment to professional development by earning a certification of completion, achieved through active participation and successful completion of all required task.
- Developed crucial transferable skills including flexibility, adaptability, and resilience by listening to employees, intern experience and completing collaborative project presented at this internship.
- Expanded my professional network through LinkedIn connections, leveraging the virtual internship platform to engage with industry professionals
- Enhanced my industry knowledge by interacting with graduates, career coaches, and recruiters from leading companies (PwC, British Airways, Deloitte, CrowdStrike, Bloomberg) through virtual talk sessions and Q&A panels

**Code Institute, United Kingdom**                                                                        **May. 2024**
Web developer
- Gained fundamental knowledge of web development by completing coding challenge courses in HTML, CSS, and JavaScript, which resulted to building responsive, interactive and user-friendly website.
- Earned certification by successfully completing all required task through acquired skills to meet professional standards in web development
- Developed transferable coding skills through online training modules, utilizing hands-on coding exercises.

## Skills

- HTML
- CSS
- JAVA
- Industry Trends & Best Practices
- Python
- JavaScript
- Figma
- Risk Assessment & Management
- Cross-functional Leadership
- User Experience Design
- Time Management
- Negotiation

## Courses/Certification

- Bright Network (IEUK) Certification, United Kingdom.
- Code Institute Certification, United Kingdom.

## Technical Proficiencies

**Tools**          Microsoft Office Suite, Google Suite, OBS Studio, Figma, Python, Visual Studio, SharePoint, Oracle SQL, Java

**Platforms**          Mac OS X, Microsoft Windows
